

# Transition to A level Maths

## Maths Summer Work

This needs to be completed before the start of September, it is compulsory work that will prepare you for the A Level course.

You will need to go login to the Integral website:

<https://integralmaths.org/>

Your individual login: **Joanne Bloggs** would be **2312T-jbloggs**

Your password: **changeme** (which you should then change!)

This is a very **interactive** online resource: tutors will talk you carefully through the topics, then half way through each unit there is an online assessment which you need to complete. After that there is **OPTIONAL** enrichment work for each unit. Please allow yourself plenty of time to work through all 7 units before the start of term.

Your teachers for September will be able to track your progress online. Please note that there is no specific summer work for Further Maths but those wanting to study Further Maths should definitely be exploring the optional material here.
